California Natural Diversity Data Base
Information Services Unit - Price Sheet (1/2000)

The California Natural Diversity Data Base (CNDDDB) collects information on the location and condition of California's rare, endangered, threatened species and natural communities. The data is entered into a computerized data management and mapping system. This information is made available to interested parties, for a fee, in the form of computer generated text reports and map overlays. The entire inventory can be purchased for an annual subscription in the form of a PC database application called RareFind 2, along with GIS coverage. RareFind 2 provides flexible query options and text-based reports for any of California's 2,800+ , 1:24,000-scale quad maps or United States Geological Survey (USGS) 7.5 minute maps. RareFind 2 is used as a stand-alone research tool or can be linked with the geographical information system (GIS) application ArcView for even greater flexibility. The known location for a plant, animal, or community is the basic unit of record in this system.

CNDDDB Annual Subscription:

Commercial, for-profit businesses are subject to a rate of \$2,500 for the initial subscription year and \$2,250 for subsequent renewal years (a 10% discount). However, should the subscription lapse 18 months or more from the established anniversary month (i.e., month of initial subscription), subscription will commence again at the initial start-up rate of \$2,500.

Government or non-profit agencies are subject to a rate of \$1,250 for the initial subscription year and \$1,125 for subsequent renewal years (a 10% discount) . However, should the subscription lapse 18 months or more from established anniversary month (i.e., month of initial subscription), subscription will commence again at the initial start-up rate of \$1,250.

Organizations can make as many copies of the data and application as necessary for their internal use but can not make copies for distribution outside of their organization.

Standard Costs for CNDDDB Products:

1 Standard Vellum Map Overlay with Text Report/Quad (non-subscribers)	\$ 30.00
1 Clear Medium (Mylar) Overlay with Text Report/Quad (non-subscribers)	\$ 40.00
CNDDDB Subscribers 1 Overlay	\$ 20.00
Additional Overlay Layers/Quad	\$ 15.00
Duplicate Overlays with same order	\$ 15.00
Text Reports/Quad (non-subscribers)	\$ 25.00
1 Hour of Staff Time	\$ 25.00
Rush Orders ¹	\$ 25.00

Requests will not include a separate charge for staff time unless a custom request is made. A custom request is any order other than one that includes all occurrences on a USGS 7.5 quad.

All CNDDDB requests are invoiced through the Department's Fiscal and Administration Services Branch. We will charge 50% of the total cost for cancellation of orders that we have taken, processed, but not yet delivered. Orders that have been delivered cannot be returned, and no refund will be made.

For more information on CNDDDB products and services, please call our Information Services Staff at (916) 324-3812, (916) 324-0475 FAX, or write to us at:

Department of Fish and Game

1807 13t Street, Suite 202
Sacramento, CA 95814

¹ A Rush order means that for an additional \$25, we will complete and send your order out in 3 business days. We use United Parcel Service's standard overnight deliveries (sorry, no Saturday deliveries). However, please consider the current work load of our Information Services staff before you request a Rush.
